## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election with traverse of Group I (claims 1-19) in the reply filed on 5-12-2005 is acknowledged. The traversal is on the ground(s) that "there would be no serious burden on the Patent Office to examine in this application all of the present claims". This is not found persuasive because searching on both composition and removal process certainly results in serious burden on the examiner.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 20-25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 5-12-2005.

3. The elected group I (claims 1-19) comprise the following species as discussed below.

Claim 4 is generic to a plurality of disclosed patentably distinct species comprising:

Species 1: unsaturated oxygenated fluorocarbon comprising epoxide.

Species 2: unsaturated oxygenated fluorocarbon comprising diepoxide.

Species 3: unsaturated oxygenated fluorocarbon comprising ketone.

Species 4: unsaturated oxygenated fluorocarbon comprising diketone.

Species 5: unsaturated oxygenated fluorocarbon comprising ester.

Species 6: unsaturated oxygenated fluorocarbon comprising ether.

Species 7: unsaturated oxygenated fluorocarbon comprising acyl fluoride.

Species 8: unsaturated oxygenated fluorocarbon comprising diacyl fluoride.

Species 9: unsaturated oxygenated fluorocarbon comprising alcohol.

Species 10: unsaturated oxygenated fluorocarbon comprising aldehyde.

Species 11: unsaturated oxygenated fluorocarbon comprising peroxide.

5. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.
6. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
